Craig W: "Everything we do in our day to day lives as active and able bodied people, we tend to take for granted..."

David S: "It was quite an experience - much tougher mentally than I had envisaged, and that was just one day!"

Katherine H: "I had a few fights with the door throughout the day, but I eventually got the hang of it!"

Teneille T: "The disabled toilet was locked and after enquiring with the bar staff as to obtaining access, I was advised that the landlord was utilising the space for storage..."

Freddie D: "everyone should experience it sometime to make you appreciate what you have..."

Holly G (12 years old): "This is a great challenge to take on and I definitely recommend anyone to have a go and I hope that I have made someone's life a little easier..."

Bryce C: "It was with mixed emotion I finished the day - I was personally very glad to be able to get up and it was a very strange feeling - my legs were heavy and I felt very tall but also felt saddened knowing that there are so many people who for them, this is their daily plight and they don't have the luxury of knowing the day is coming to an end and they can escape their constraints and that is weighing with me now."

Keith R: "The Wheelchair Challenge is a fantastic initiative! Unlike many other fundraising activities, this event really gives you an insight into the lives of those you are trying to help..."
